

For quick and precise sharpening of TIG electrodes. For perfect welding seams.

PROXXON

Tungsten electrode sharpener ESV

Uniform longitudinal grinding ensures high arc stability.

For tungsten electrodes of apex angles of 30° and 60° with diameters of 1,6 - 2 - 2,4 - 3.2mm. Easy preselection thanks to movable guiding element (hard-anodised). Including two diamond-plated grinding discs for low roughness.

NO 28 614

Note:

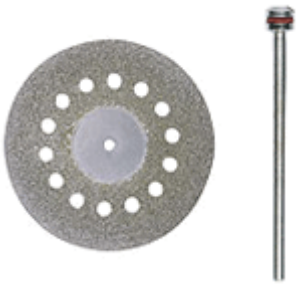

Cordless professional drill/grinder IBS/A is not included in the scope of delivery.

See us on YouTube!

Suitable for the following machines with MICROMOT standard 20mm-collar:

- Professional drill/grinder IBS/A
- Professional drill/grinder IBS/E
- Long neck straight drill/grinder LBS/E
- Precision drill/grinder 240/E
- MICROMOT 230/E
- MICROMOT 60
- MICROMOT 60/E
- MICROMOT 60/EF

Diamond-coated cutting disc
Less heating up due to cooling holes.
