INDUSTRIAL

69 high quality tools placed ready to hand!

L-BOXX® - System L102 (extremely flat!):

Store neatly, quickly and smoothly and transport safely. Compatible with numerous in-vehicle-equipment-systems of well-known brands. Outer dimensions: 445 x 358 x 118mm. Tool panel pouch and foam inlay made of high quality materials.

DIN
ISO

Craftsman's universal tool set in proven L-BOXX-System.

14 sockets 1/2" (12.5mm) 8 – 24mm, standard ratchet 1/2", universal joint, extensions 125 and 250mm, 4 deep sockets 10 – 19mm, 15 *SlimLine* combination spanners 6 – 21mm, *MicroSpeeder* ratchet spanners 10x13 and 17x19mm, 5 slot screwdrivers 3 – 6.5mm, Phillips PH 1 and

PH 2, voltage tester, pocket key sets HX and TX (9-piece each), **KNIPEX** combination pliers 180mm and **KNIPEX** water pump pliers 250mm, ball-peen hammer (300g) with graphite handle.

NO 23 660

Two new precision tools complement the successful range

of our MicroClick torque wrenches.

Automatic quick release: Clearly audible and palpable click signal when the selected torque is reached.

For full professional use!

MicroClick torque wrench MC 60. For 12 – 60Nm.

With 3/8" square drive (10mm). Ratchet mechanism with reversing lever for clockwise and anticlockwise rotation. Clearly legible analogue display with additional micro-scale for fine adjustment. High accuracy: Tolerance of +/- 3% according to ISO 6789. Including test certificate. Total length 390mm. Packaged in a practical plastic storage box.

NO 23 350

MicroClick MC 60 and MC 500 are precision tools. A practical plastic case is included in the scope of delivery for safe storage.

MicroClick torque wrench MC 500. For 100 – 500Nm.

For repairs of small trucks, transporters and tractors. With 3/4" square drive (20mm). Ratchet mechanism with reversing lever for clockwise and anticlockwise rotation. Sturdy steel shaft with rust-protective finish: double nickel and subsequent matt-finished chrome-plating. Piece by piece calibration and final inspection (including test certificate). Tolerance according to ISO 6789: +/- 3%. Clearly legible analogue display with additional micro-scale for fine adjustment. Total length 820mm. Packaged in a practical plastic storage box.

NO 23 340

New flexible problem solvers for workshop and assembly.

GUARANTEE**

For full professional use!

FLEX-DOT Combination-Screwdriver for use with 1/4" standard bits and 1/4" sockets (6.3mm)

Rounded two-component handle with flexible nubs for fatigue-proof and comfortable continuous use: Excellent grip attitude also with quick regripping. Combines high torques and pressure forces with balanced design for horizontal and vertical approach.

Choice between the options simply by sliding the sleeve. Blade length 110mm.

NO 22 283

MICRO bit ratchet 1/4" (6.3mm). With extremely slim head (23 x 12mm). For tricky work.

Fine tooth drive: Several of the 72 teeth engage simultaneously for transmitting high torque. 1/4" bit holder with magnetic insert. Distance between reverse lever and bit end only 30mm. Total length 120mm. Made from CrV steel, double nickel plated with matt chrome plated finish. Grip of oil and acid-resistant TPR (Thermoplastic Rubber). With practical hole for hanging up.

NO 23 158

10-piece MicroSpeeder set in foldable plastic holder. 8 – 19mm.

With ratchet mechanism and reverse lever on the ring end for clockwise and anticlockwise rotation. No swapping over: a real time saver. Ideally suited for working on flat surfaces due to its 15° offset ring side. Practical foldable holder offering a clearly marked place for storage of each spanner. The ideal companion for construction site work, also providing holes for wall-mounting in the workshop. With clearly readable sizes. Organised forever. One each in extra long design, sizes 8 – 10 – 11 – 12 – 13 – 14 – 16 – 17 – 18 and 19mm.

NO 23 126
