

For tricky work, where space is tight. With extremely slim ratchet head (34 x 17mm). Overall length 195 mm.

MICRO compact ratchet 1/2". With extremely slim ratchet head!

For screwing under the instrument panel. For removing the airbag control device. For the air conditioning system. For working on the seat mechanism or inside the car body. On the interior lining and on the sunroof. And, not least, in the engine compartment where space is tight.

Fine tooth drive: Several of the 72 teeth engage simultaneously transferring extremely high torques. Reverse lever for ratcheting direction. Release mechanism: unlocking the sockets at the push of a button. Forged from CrV-steel, double nickel plated with matt chrome plated finish. Grip of oil- and acid-resistant TPR (Thermoplastic Rubber) with practical hole for hanging up.

NO 23 164

17 x 34mm, overall length of 195mm

Quality at its best:

Highest quality, exceeds
DIN/ISO requirements for
hardness and maximum
torque. Individual size
tolerances are all well within
the prescribed norms.
