

New accessories for cordless tools.

Lithium-ion battery Li/TL3

TABLESS

With tabless technology for the most demanding applications.

Particularly suitable for energy-intensive tools such as LHW/A. Designed for high charging currents and therefore short charging times. Reaches approximately 95% of its capacity in the SuperCharger SC after around 15 minutes. Increased efficiency thanks to reduced heat loss and delayed safety shutdown in the event of overheating.

Technical data:

10.8V. 3.0Ah. Length 85mm. Weight 180g.

NO 29 894

230V

10.8V

8 A

SuperCharger SC

For lightning-fast charging!

Charges the Toolless Li/TL3 battery from 0 to approximately 95% of its capacity in around 15 minutes. With active cooling and intelligent temperature monitoring. Housing prepared for wall mounting. Not compatible with the Li/A2 battery.

Technical data:

240V. 50/60Hz. Output 12.6V, 8A. Weight 380g.

NO 29 882
