

Complete set with rotary tool MICROMOT 60/E, transformer and 34 bits and cutters of dental quality.

Complete Model Building and Engraving Set

The right choice for creative hobbyists and model makers.

The rotary tool MICROMOT 60/E comes in this set with 6 high precision triple slit steel collets in sizes 1 - 1.5 - 2 - 2.4 - 3 and 3.2mm (1/32" - 1/16" - 5/64" - 3/32" - 7/64" and 1/8") which ensure accurate clamping of the bits for highest concentricity and the precision you need for finest work pieces.

This kit includes an AC adapter (12 - 18V, 1A) and a selection of 34 useful bits (1 diamond grinding bit, 1 fine cutter, 0.5 and 1mm (1/64" and 1/32") micro-drills, 1 brass brush, 4 aluminum-oxide grinding bits (cylinder, sphere, disc and cone shaped), 1 polishing pad, 4 grinding wheels 22 x 3mm (7/8" x 7/64"), 2 each aluminumoxide and silicon carbide, 20 cutting discs and 1 mandrel.

This product can expose you to chemicals including lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Video MICROMOT 50/E

Note:

The speed control of our 12 volt devices only works when operated via non-stabilised power supply units (e.g. all MICROMOT mains adapters). Connection to stabilised power supply units is possible. However, the devices will then operate with maximum rotational speeds (also applies to operation with batteries).

A neat storage solution!

Each part finds its place in a practical and sturdy plastic case.
